Revised 1/10

Who We Are

The C. Wayne Ellett Plant and Pest Diagnostic Clinic (CWEPPDC) is a diagnostic facility specializing in the identification of plant diseases, plant health issues, and insect related problems. The CWEPPDC offers a broad spectrum of low cost testing to identify pests and culturally/environmentally related plant health issues. Experienced diagnosticians collaborate with specialists in plant pathology, entomology, horticulture, agronomy, natural resources, and other areas to identify pests, diseases, and cultural/environmental factors.

What We Provide

Services rendered include the identification and diagnoses of:

- Fungal, bacterial, and viral plant diseases
- Insects and other arthropods
- Insect damage
- Plants and aquatic weeds
- Environmental/cultural injury to plants
- Nematodes, including soybean cyst nematodes

A Partner in Agricultural Security

The CWEPPDC is a partner in the National Plant Diagnostic Network (NPDN) (<http://www.npdn.org>), a nationwide consortium of diagnostic laboratories that enhances agricultural security by rapidly detecting and monitoring pest and pathogens introduced into a new region of the United States.
